

I am writing in support of K-LOVE radio which extensively uses FM translators. KLOVE is the only radio station my wife and I listen to. It's positive, inspirational and relevant messages are a great help to us. With the airwaves filled with music, lyrics, and talk that are often attacking, sometimes violent, and represent moral values we do not share nor want our children to be immersed in, it is a blessing to us to have a place on the radio that we can trust and enjoy. We also appreciate the non-commercial format and believe in it so much we support it with our wallet by being monthly donors. There are some radio stations that provide KLOVE's mix of Christian music, positive message, and quality without commercials but they are few and far between. KLOVE provides our community and communities across the country with programming that meets spiritual needs, provides positive values, and lifts spirits. We first discovered KLOVE in Oklahoma City when we lived there. It's been great to know that almost anywhere we go, we can find KLOVE and enjoy its quality programming. To shut down these FM translators would rob many communities one of their only sources of quality, commercial free, encouraging Christian music and programming. KLOVE is a positive influence in the community. It promotes things that bring people together and encourages them to grow to be great people, parents, friends and citizens. They've encouraged me enough to want to write on their behalf my first letter ever to any govt. entity. PLEASE DO NOT ALLOW LPFM TO HAVE PRIORITY OVER FM TRANSLATORS.
